DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

- I. Claims 2, 4-14, drawn to a method for treating fibrosis in a subject with a fibrotic condition with anti- $\alpha 1\beta 1$ antibody, classified in Class 424, subclass 143.1 and subclasses 139.1.
- II. Claims 2 and 8-14, drawn to a method for treating fibrosis in a subject with a fibrotic condition with anti- $\alpha 2\beta 1$ antibody, classified in Class 424, subclass 143.1.
- III. Claims 2 and 8-14, drawn to a method for treating fibrosis in a subject with a fibrotic condition with anti- $\alpha 6\beta 1$ antibody, classified in Class 424, subclass 143.1.
- IV. Claims 3 and 8-14, drawn to a method for treating fibrosis in a subject with a fibrotic condition with anti- β antibody, classified in Class 424, subclass 143.1.

Claim 1 is a linking claim and will be examined along with the elected Group.

2. Groups I-IV are different methods. Methods of treating differ with respect to ingredients (different antibodies); therefore, each method is patentably distinct.

3. These inventions are distinct even though the classification is shared, a different field of search would be required based upon the structurally distinct products recited and the various methods of use comprising distinct method steps. Therefore restriction for examination purposes as indicated is proper. Further, a prior art search also requires a literature search. It is an undue burden for the examiner to search more than one invention.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maher Haddad whose telephone number is (571) 272-0845. The examiner can normally be reached Monday through Friday from 7:30 am to 4:00 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (571) 272-0841.
